

# VIASAT ELITE HEADQUARTERS FOR COMBAT EMPLOYMENT

ELITE is a mission-ready *Expeditionary Lightweight Integrated Tactical Edge (ELITE)* Headquarters network kit that enables soldiers on the front lines with enhanced situational awareness and resilient communications.

Viasat's portable ELITE Headquarters kit brings mobile C5 solutions for the TOC/ FOB and Mobile Command environments through enabling rapid setup/tear down and seamless connectivity to multiple disparate networks across existing military computing environments. ELITE HQ delivers real-time data and distributed cloud access, enabling the Common Operational Picture, mission ISR, sensor fusion, and emerging capabilities including telematics and medcom.

COMPONENT	DESCRIPTION
<b>C2 Applications</b>	C2 software providing ground radar and datalink integration, data fusion and correlation, and Common Operating Picture (COP) for real-time Situation Awareness (SA)
<b>Tactical Radio Gateway</b>	Multi-channel communications including Link-16, SADL/EPLRS, SINCGARS, ANW2C, IW, DAMA, V/ULOS; PacStar tactical compute for host/bridge/gateway function; KG-250X Type 1 Crypto and GD TACDS Cross Domain for multi-level networks
<b>Intra-Node Comms</b>	Stand-alone LTE and 5G networks for local connectivity
<b>Inter-Node Comms</b>	Low LPI/LPD Free Space Optics (FSO) exceeding 10Gbps over 20km for connecting between TOC/ FOB
<b>High-Capacity SATCOM for BLOS Comms</b>	Portable Multi-Mission Terminal (MMT) for Military/Commercial Ku/Ka and X-Band
<b>SIPR/NIPR/JWICS Access</b>	Hosted on portable servers with Type 1 DAR/DIT capability
<b>Network Routing/Management</b>	NetAgility enabling rapid network setup and resilient connectivity
<b>Cyber Monitoring</b>	Network and EUD monitoring integrated with real-time Threat Intelligence, backed by our 24/7 CSOC
<b>Tactical Radios</b>	Support for Trellisware, Silvus, PRC-148C, PRC-161, PRC-163, PRC-167. ELITE supports future radio integration as a transport agnostic solution
<b>Secure EUDs for disconnected SA</b>	S20 Tactical Edition (TE) kits with ATAK and Mobile Dynamic Defense (Cybersecurity)
