

# Carbon Reduction Plan

**Supplier name:** Viasat UK Limited

**Publication date:** March 19<sup>th</sup>, 2026

## Commitment to achieving net zero

Viasat UK Limited is committed to achieving net zero emissions by 2050.

### Baseline emissions footprint

The baseline emissions were recorded from April 1, 2024 – March 31, 2025. Emissions have been calculated using the operational control approach. Emissions produced during this reporting period were produced prior to the introduction of any strategic and measurable policies to reduce emissions.

Although we recognise that our baseline emissions will have been impacted by restrictions due to our previous office location, we have established this baseline as a reference point. We acknowledge our emissions reporting and reduction plan will be an iterative strategy to achieve Net Zero by 2050.

**Base year:** Fiscal Year 2025 (FY25 April 1, 2024 – March 31, 2025)

### Additional details relating to the baseline emissions calculations:

IPCC AR5 GWPs were used for the development of this report and our FY25 GHG inventory. Waste generated in operations was not assessed in Category 5 but will be expanded upon in our FY26 GHG inventory.

GHG Scope	Footprint Source	Total tCO2e
1	Stationary Combustion – Facility (Natural Gas)	34
2	Purchased Electricity – Facility (Market)	159
2	Purchased Electricity – Facility (Location)	78
	<b>Total Scope 1 and 2 (Market)</b>	<b>193</b>
3	Upstream Transportation and Distribution (Category 4)	26
3	Waste Generated in Operations (Category 5)	-
3	Commercial Air Travel (Category 6)	66
3	Hotel Stay (Category 6)	24
3	Personal Vehicle (Category 6)	11
3	Rail Travel (Category 6)	0
3	Employee Commuting/Telework (Category 7)	40
3	Downstream Transportation and Distribution (Category 9)	-
	<b>Total Scope 3</b>	<b>167</b>
	<b>Total Scope 1, 2, 3 (Market)</b>	<b>360</b>

**Current emissions reporting:** Fiscal Year 2025 (FY25 April 1, 2024 – March 31, 2025)

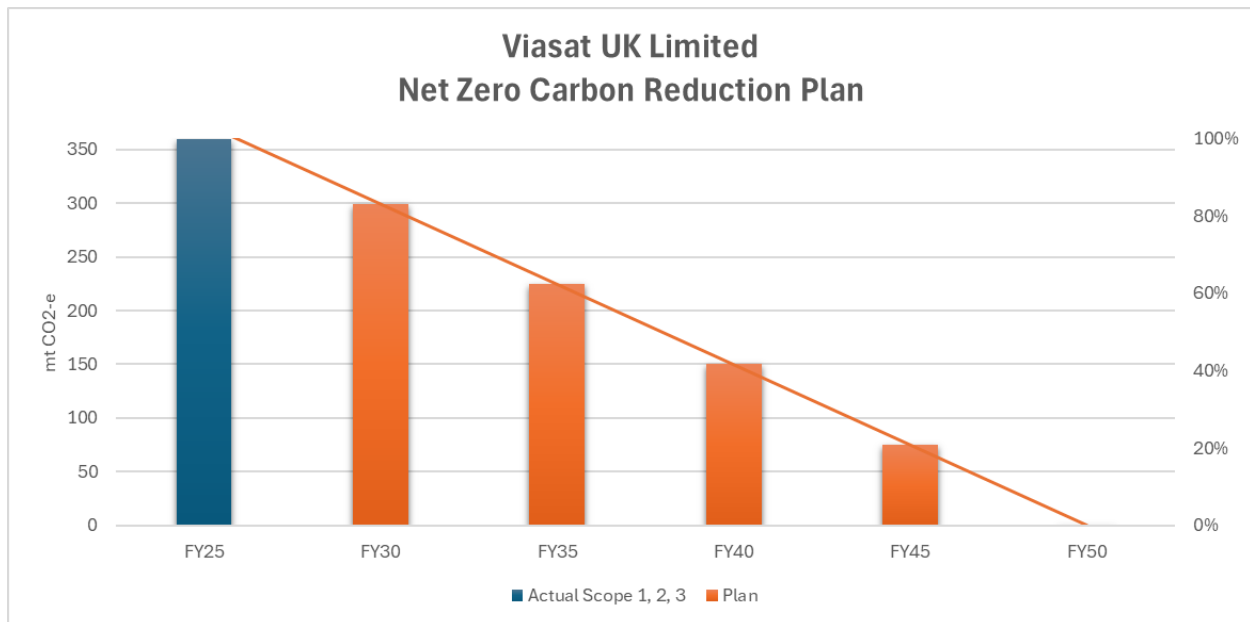

<b>GHG Scope</b>	<b>Footprint Source</b>	<b>Total tCO2e</b>
1	Stationary Combustion - Facility	34
2	Purchased Electricity – Facility (Market)	159
2	Purchased Electricity – Facility (Location)	78
	<b>Total Scope 1 and 2 (Market)</b>	<b>193</b>
3	Upstream Transportation and Distribution (Category 4)	26
3	Waste Generated in Operations (Category 5)	-
3	Commercial Air Travel (Category 6)	66
3	Hotel Stay (Category 6)	24
3	Personal Vehicle (Category 6)	11
3	Rail Travel (Category 6)	0
3	Employee Commuting/Telework (Category 7)	40
3	Downstream Transportation and Distribution (Category 9)	-
	<b>Total Scope 3</b>	<b>167</b>
	<b>Total Scope 1, 2, 3 (Market)</b>	<b>360</b>

### **Emissions reduction targets**

Viasat UK Limited has no previous emission reduction commitment, this will be Viasat UK's first. In order to continue our progress to achieving net zero, we have adopted the following carbon reduction targets.

We project that carbon emissions will decrease to 310 tCO2e in FY26, due to the purchase of REGO certified energy at a new UK operation. This represents a targeted reduction of 14%.

We expect further reductions during the year as are current and future reduction initiatives take effect. These reductions will be reportable in FY27 and beyond.

## Carbon reduction projects

### Completed carbon reduction initiatives

As the base year and current year are the same in this initial Carbon Reduction Plan, no carbon reduction projects have been completed or implemented during this reporting period.

### Current and Future carbon reduction initiatives

Viasat UK Limited has initiatives already in place. These initiatives will enable us to reach our goals and achieve our objectives. These current initiatives have already had a positive impact on reducing our emissions. These reductions and the effect on the plan will be updated during Viasat UK Limited next annual review.

Current initiatives are as follows:

- Setting objectives and progressing continuous improvement activities associated with maintaining our certification to ISO 14001:2015, which Viasat UK Limited has held since June 2022.
- A focused approach to environmental and sustainability objectives and programmes in line with our established Social Values Policy
- Viasat UK Limited moved into a new energy efficient office in February 2025; the new facility has been completed in line with current commercial environmental building standards for the UK.
- EV charging points are accessible within the grounds of our new facility, helping to motivate our employees to consider purchasing ultra-low emission vehicles
- Cycle to work scheme are available to all employees.
- As of February 2025, office power supply at select operations is procured from renewable sources and 100% REGO certified.

- All the waste generated by Viasat UK Limited is either recycle or recovered this includes food waste, dry recyclables, and general waste.
- Flexible hybrid working patterns allowing employees to work remotely, reducing commuting activities.
- Encouraging employees who live locally to use the business parks shuttle bus service to onward public transport hubs. Train and bus stations for example.
- Utilising Teams and Zoom remote meeting facilities reducing the need for face-to-face meetings.
- Flow down of our environmental and sustainability requirements to our supply chain during contract award and/or supplier approval and re-approval.

### **Declaration and sign off**

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard<sup>13</sup> and uses the appropriate government emission conversion factors for greenhouse gas company reporting.<sup>14</sup>

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where required), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard.<sup>15</sup>

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

**Signed by Jessica Elizabeth Everill, on behalf of Viasat UK Limited:**

**Title:** Senior Director

**Date Signed:** April 23rd, 2026
