

Environmental Health & Safety

Contractor Checklist

Date: _____

Contractor (Company Name): _____

Contractor Superintendent/Supervisor: _____

Contractor POC: _____

Representatives of the above-named Contractor have reviewed the below applicable Viasat Carlsbad Environmental Health & Safety program/OSHA or Cal-OSHA orientation topics on date above.

Contractor link - <https://www.viasat.com/supplier-information/tools-resources/ehs/>

The following are the minimum documents and/or forms that need to be downloaded, filled out and returned to your Viasat Inc. Point of Contact from the link above:

- Contractor EHS Brief (**All contractors that will be on site must review, sign, and turn in the last page of the brief to Viasat security upon arrival on site**)
- Contractor EHS Handbook (Review and understand the requirements)
- General Permit to Work (Fill out as required and for any work that requires secondary permits, they can be found on the website)

If additional permits are identified, please work with your Viasat Inc. POC to ensure they are identified and filled out.

Contractor is responsible for insuring flow-down of this information to all levels of employees (including subcontractors) working on the project. Contact your Viasat Inc. POC if additional information is needed. Please ensure that you return this form and the signed copies of the Contractor EHS brief as well as all applicable permits to your Viasat Inc. POC before the start of the project.
