

Maritime internet for cruise and expedition

High-performing internet you expect on land. Now on water.

Viasat[™] 

Maritime internet for cruise and expedition

No other provider offers maritime connectivity like Viasat. With our game-changing network, cruise operators can provide unparalleled bandwidth, no speed limits*, and a superior internet experience that allows passengers and crew to connect with family and friends, stream, browse, and watch movies just as they would at home or in the office.

* "No speed limits" means that there is no cap set on the typical speed delivered within a specific maritime plan. Speeds may still be limited by terminal equipment capabilities, network and environmental conditions, and other factors. Speeds are "up to," are not guaranteed and will vary. Typical speeds range between 25 Mbps and 50 Mbps.

Changing the game for maritime internet

No other provider can bring high-speed, reliable internet to maritime like Viasat.

1

Advanced technology

Our powerful, high-capacity satellite network means more speed, data and performance while you cruise.

- › No speed limits
- › An at-home internet experience on water
- › Utilizes proven Cobham SAILOR equipment

2

Unrivaled connectivity

We deliver fast, seamless internet for everyone on-board.

- › Provide access to HD video streaming, movies, TV and sports
- › Keep everyone connected to work and family
- › Separate connectivity links for passengers and crew

3

Best internet experience

Today's passengers expect the best – and we help you deliver it.

- › Integrate cruise line folio with connectivity and media access portal
- › Stream, browse, connect without interruption

Equipping your vessel

Easy to install, low-profile equipment delivers more performance, reliability, personalization and everything great maritime internet should bring to passengers and crew.

SAILOR 900

- › Ideal for cruise vessels
- › 103 cm size
- › View specs: [SAILOR 900](#)

MARINE ACCESS SYSTEM 1000

- › Fully managed on-board networking solution
- › Enjoy unmatched speeds from Viasat's next-generation satellite technology
- › View specs: [MAS 1000](#)

Cruise service options

We customize subscriptions to meet your unique requirements for your passengers and your cruise line.

- › Plans and pricing for small to large cruise vessels
- › Flexible plans featuring passenger paid browsing or streaming plus-up options
- › High-speed internet experience for all service plans
- › Ability to provide connectivity, media, and entertainment to your passengers
- › Sponsorship and revenue share model opportunities available.

Deliver an on-board experience that engages passengers and activates new revenue opportunities.

Viasat offers an on-board network management solution to enable high-speed internet and is purpose built for maritime. Coupled with our expertise in consumer experiences and a robust ecosystem of third-party partners that provides:

- › Unified media solutions to combine the best of stored content, live TV, streaming services to engage and entertain passengers.
- › The capacity and scale to meet the changing demands of your passenger
