

Welcome to Viasat's Tribal Connect

Working with tribes, Viasat is happy to offer low-cost, fast internet – and more – to households in Indian Country

Viasat's Tribal Connect is a new collaboration that brings high-speed internet, jobs, and give-back programs to tribal nations. For more information, visit www.viasat.com/tribalconnect.

Relationship that goes beyond internet

As part of our commitment to the tribal community, Viasat is dedicated to training and hiring local members of the community to install, service, and support internet service. With each successful installation on tribal lands and after the customer's 90-day anniversary, Viasat will donate to the tribe through a give-back program. Ask your tribe for more detailed information about the give-back program.

Better internet available for your home and family

We go where cable, fiber, and high-speed DSL can't (or won't), and offer fast, reliable, affordable plans where you live, with:

- › Installation typically within 3-5 days
- › Fewer wires, less mess
- › Big savings!

See if you qualify for low-cost service

ACP: This benefit is not currently available.

CAF II: Viasat is also offering low-cost, high-data plans in select tribal locations through the FCC's Connect America Fund Phase II Auction Program (CAF II). Additional discounts are available through Lifeline for qualifying participants.

For more information on the ACP and CAF II programs, please visit www.viasat.com/tribalconnect.
